In Zusammenarbeit mit

6th Conference on Socially Responsible Procurement of IT Hardware

on 21/22 June 2018 in Stuttgart

Venue: Evangelisches Bildungszentrum Hospitalhof, Büchsenstraße 33, 70174 Stuttgart,
website www.hospitalhof.de

Conference website & registration: www.faire-beschaffung.de

Workshop list

Workshop session I (Friday, 10:45 am to 12:15 pm)

Workshop 1

Sustainability Compass: How does the web tool support socially responsible public procurement?

with Ann-Kathrin-Voge (SKEW) and Max Mangold (GIZ)

(with practical exercises; please bring a smartphone or laptop if possible)

Guiding questions:

- How can the online tool be used to compare labels?
- Examples of implementation, providers, text modules: How does the compass support the award procedure?

Workshop 2

Conflict minerals in IT products

with Axel Müller (FAKT), Siegfried Dewaldt (HP Germany) and Katja Gnittke (WMRC Rechtsanwälte)

Guiding questions:

- Taking the DRC as an example: What is happening on the ground to prevent conflict materials and human rights violations? What are the particularities of industrial and small-scale mining?
- What certification initiatives are there and what effect do they have?
- How can the topic of conflict materials be taken into account in calls for tenders?

Workshop 3:

Fair Green IT – How does energy and resource-efficient IT also become socially responsible?

with Dr. Erik Heyden (Ministry of the Environment Baden-Württemberg) and Marie Holdik (Werkstatt Ökonomie)

Guiding questions:

- Where does Baden-Württemberg stand in the sustainable procurement of IT?
- What are the prospects for the systematic integration of social criteria into the Green IT strategy?
- Who can drive this forward and what framework conditions are needed?

Workshop session II (Friday, 13:00 – 14:30 pm)

Workshop 4:

Practical workshop: ICT calls for tenders with social criteria in concrete terms

with Manfred Abele (Central purchasing department Stuttgart), Henning Elbe (Dataport), Jens Lehner (IT.Niedersachsen) and Katja Gnittke (WMRC Rechtsanwälte)

Guiding questions:

- How can workshop participants put the experience from existing practical examples into practice in their own tenders?
- What are the advantages and disadvantages of implementation in different award phases?
- How do I integrate control options into my tender in a legally secure manner?

Workshop 5:

Monitoring by Electronics Watch for the enforcement of social criteria

with Dr. Peter Pawlicki (Electronics Watch), Andreas Thamm and Dr. Lars Kühnel (both Christian Albrecht University Kiel)

Guiding questions:

- How do contracting authorities work with the monitoring organisation Electronics Watch?
- What distinguishes Electronics Watch from certificates and social audits?
- How are controls and improvements carried out in the supply chain?

Workshop 6:

Verification of social criteria with certificates: TCO Certified, EU Ecolabel, Blauer Engel

with Annelie Evermann (WEED)

Guiding questions:

- Which social certificates are currently available?
- What standards do they require and how do they verify this?
- How can they be integrated into tenders in a legally compliant manner?
